November 2024

## FROM THE HELM

Congratulations to our Director of Docks, Alan Johnson, and his crew for the successful 2024 extraction of the Docks. His thoughtful methods have proven to be a safe and cost-effective way to protect & store our Docks for the off Season. Thanks, from all of us.

The Sea Wall -Revetment has been completed thanks to Alan Johnson, and our Contractor, Atlas Landscaping & Masonry (Chris Scaturro). Also, thanks to the BOG and the membership for budgeting this important infrastructure project and for its final installation.

Thank you to Chris Beach, Andrew Mathews, Tim O'Mara, & Dianna Stackow, the "TV" Committee, for their investigative work on the purchase and installation of the new 85" TV and "Sonas" System. Thanks to Kevin Brodrick's Budget frugality we were able to go forward with this project.

The 2025 Budget and long-term planning numbers are currently being assembled. The proposed final budget for 2025 will be worked on this month. Our objective will be to prioritize and provide a prudent budget with a plan to achieve our wish list over time.

Dave Hubbard, our Fleet Captain along with John Baker our Racing Officer presented this year's trophies to this year's winners at the 2024 "Award's Brunch". Alan Rosenblum presented the trophies for the 15th Annual Fishing Tournament.

Once again, I'd like to thank Laurina Nielsen for the great social program she put together this year along with our Bar Managers, Dianna Stackow, and Connie Siris, with John & Jean Doherty in support. They donated many hours to make for a most successful and fun season.

Thank you,

Alan Siris

Commodore

## UPDATES FROM THE OFFICERS AND DIRECTORS

### VICE COMMODORE

It is pretty hard to believe that our boats are all safely on the hard for the winter. Nancy and I had a spirited trip up deliver Ripple to Essex Boat Works just before Columbus Day. They got the wind direction correct, NE. The waves and wind speed that was another story. It was a bit of an adventure, but we made it there safely. I am already looking forward to next season.

Congratulations to Alan Johnson on a job well done on removing the docks in one day, with no accidents or injuries!

Chris Beach

Vice Commodore

## UPDATES FROM THE OFFICERS AND DIRECTORS

### DOCKS & FLOATS

I am happy to report that all docks are winter stored. We were able to stack the docks so that any work authorized and needed work on the docks can be performed. We had no accidents or injuries. My planning seemed to work nicely as all the docks fit where I had envisioned. While we did not store a dock every 5.5 minutes we did average a dock every 6 minutes but with 66 docks it still took 6.5 hours of crane time. We had the crane show up 30 minutes before the membership as it takes him 30 minutes to set up. Our start time was scheduled for 8:30 and we had our first dock in the air at 8:38. This worked so well that we will use this format in the future and I will prepare an instructional hand off to my successor next year. No reason to reinvent the wheel. The docks are all in position so that if we get a budget, all decking on the main dock can be replaced, upgrades to the electric cables feeding the electrical station can partially be done on the hard and the security gate can be added over the winter if it is approved and constructed. We had no issues with unstable electric or the water on the docks this season. Due to tides next April, we will be launching the docks on April 12.

Looking back on our first year with the expanded marina I think it worked as designed. If any member has suggestions for improvements I would like to hear them. My observation is that we did not make adequate allowance for the larger boats that the members are acquiring. Possible solutions are a new Phase 3 but that would require more land, more docks and permits, or perhaps add a piling another ten feet from the end of the finger piers on slips N11 to N18 so that longer boats would be able to secure the bow or stern to a piling but not have a finger piers. This would allow us to accommodate longer boats without additional finger piers. Our North end slips have 17' beams which is a useable width. Anything would definitely require new permits and additional underwater leased land as we are built out to the limits of our license.

## UPDATES FROM THE OFFICERS AND DIRECTORS

### DOCKS & FLOATS

Reviewing the reported income from Mooring/slip rentals I would like to point out that combined we are 16.8% ahead of 2023 or 20K+ and 11.8% ahead of budget. . We welcomed over 1000 visitor last summer but what is very interesting 50% had never visited us in the past. We have become a destination harbor and a destination YC.

Proposed 2025 Season would be:

Reservation accepted starting 3/1/25

Closing of the yacht Club 10/30/25 for slips and mooring reservations to allow the start of winterization. Launch service ends 10/31.

Slip contract period 4/14 to 10/31/25

The docks will be removed on 11/8 next season. There is a terrible HT on 11/1 and 10/25. We could move it up to 10/25 but that has a 2:22 pm high tide. Not an ideal tide with the number of docks to be moved.

Alan Johnson

Director of Docks & Floats

# SOCIAL!

## Social words

October activities for the club got away from me, We were supposed to have the murder mystery night on October 26 but too many conflicts with family events slowed me down. However, we did postpone Murder Mystery Night to Saturday December 7th so keep your eyes open for Flyers and mark your calendars.

The docks came out November 2nd and then the following weekend we had a Friendsgiving dinner and grab bag on November 8th. It was fun and I am sure that when we come together for a food sharing, we are some of the bests cooks on the East coast! Thanks to all who participated.

Our Awards Brunch on Sunday November 10th was a lovely event with good food and about 40 participants. Dave Hubbard put on a superb slide presentation and fishing and sailing trophies were presented.

Stay posted for flyers for the following event:

November 15th Taco and Margarita Night

December 7th Murder Mystery Night

December 13th Pizza night and LRC game

December 15th Annual Meeting
