

MAYOR'S CUP    SEPTEMBER 16, 2005    First gun 7 PM

The Mayor's Cup uses a Jack Rabbit start. The start times for each boat is calculated based on the PHRF rating and the distance of the race. If all sailors use equal skill and all handicaps are fair (of course) then all boats will converge at the finish. First to finish is first, second to finish is second, third is third, etc. Time keeping is not required only order of finish.

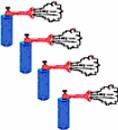

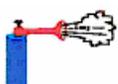

Before the start, the race committee will chose one of the courses below. A long course will be chosen when strong winds are forecasted; a short course for light winds. The courses can not be shortened. When checking in with committee boat, please advise whether you will sail Spinnaker or Non-spinnaker.

**NOTE THE SHORT START SEQUENCE BELOW.** One starting sequence will be given. Spinnaker and Non-spinnaker boats will start from the same sequence. A Green flag will be used. Starting time for each boat is minutes and seconds after start signal (drop green flag) as given in the list below for the course used. At 5 minutes intervals after the start the Race Committee will toot the horn until all boats have started.

Unless modified here or in the SYC 2005 Race Program Sailing Instructions (booklet) all racing rules of sailing apply.

If race committee is off station when you finish, pass close to the finish buoy and record your finishing position (who has finished before and after) and your finishing time.

**START SEQUENCE:**
