What is Pancreatic Cancer?

With an overall survival rate of just 8% over five years, pancreatic cancer has no early detection tests, no effective long-term treatments and, unless the cancer is surgically removed in its earliest stages, no cure. More than 55,000 Americans will be diagnosed with pancreatic cancer this year alone. The disease affects men and women equally, almost always after the age of 45. It is the second most common malignant tumor of the gastrointestinal tract and the fourth leading cause of cancer-related deaths in adults. Increased awareness, education and early detection are our most powerful weapons in the fight against pancreatic cancer.

Palliative Medicine at Mather Hospital,
Port Jefferson, NY

Primarily the Palliative Medicine team at Mather Hospital helps patients and their families who are contending with a life changing diagnosis. The team works with the patient and family to navigate the complex decision making about all aspects of the patient's care. Effective palliative care maximizes quality of life while respecting the patient's wishes. In concert with the patient's physician, Mather's Palliative Medicine team educates the patient and family to their disease process, and will address psychological, cultural and/or spiritual issues the patient or family may be struggling with. Visit www.matherhospital.org/palliative to learn more.

About the Lustgarten Foundation's
Mission to Cure Pancreatic Cancer

The Lustgarten Foundation is America's largest private foundation dedicated to funding pancreatic cancer research. Based in Woodbury, N.Y., the Foundation supports research to find a cure for pancreatic cancer, facilitates dialogue within the medical and scientific community, and educates the public about the disease through awareness campaigns and fundraising events. Since its inception, the Lustgarten Foundation has directed \$154 million to research and assembled the best scientific minds with the hope that one day, a cure can be found. Thanks to private funding, 100 percent of every dollar donated to the Foundation goes directly to pancreatic cancer research. For more information, please visit www.lustgarten.org.

Regatta Partnership

As a Regatta partner, your company/organization can make a difference in the lives of thousands of people on Long Island and across the country. Opportunities exist at various sponsorship levels with increasing benefits for your company/organization at each increment. In-kind donations of products or services needed to produce the event will be assessed by you at full market value.

Why Partner?

- Strong visibility in the premiere North Shore market
- Association with a local and national movement in the fight against pancreatic cancer
- Image-building opportunities associated with a vital cause
- Media coverage
- Product showcasing and product sampling (if applicable)
- Pancreatic cancer health awareness and education for your employees
- Employee morale-building and company pride
- Increased customer loyalty

The Port Jefferson Yacht Club, Inc., located in the picturesque Village of Port Jefferson, NY, is devoted to the interests of boating. It provides social, educational, cruising and racing programs. Founded in 1959 as the Setauket Yacht Club, it moved to its present location in the southeast corner of Port Jefferson Harbor in 1977. In 2015 the club voted overwhelmingly to change its name to the Port Jefferson Yacht Club to more accurately reflect both its location and to have closer ties to the Village of Port Jefferson and its harbor. We are excited about the advent of the Village Cup Regatta. It was created to strengthen our fellowship with the Village and to join in the fight against a dreadful disease – one that has dearly cost our club.

Port Jefferson, a historic ship-building village, totally supports this event, as a great way for the entire community to endorse a wonderful cause. I love that the Regatta is an event that brings our people together. The employees of Mather Hospital and Port Jefferson Village will be participating in this "Race for a Cause" on a beautiful day in our very own harbor. What a great way to boost morale and bring the Village together. We are thrilled that this has become an annual event in our continuing relationship between the hospital, the Village and the Port Jefferson Yacht Club. — Mayor Margot Garant

Fight Pancreatic Cancer

Village Cup Commodore's Message

The Port Jefferson Yacht Club, established in 1959 and formerly known as the Setauket Yacht Club, is once again proud to host the Village Cup Regatta. The regatta is a fun-loving and friendly race between two teams composed of a team representing the Village of Port Jefferson and a team representing Mather Hospital. The Village Cup is part of the Yacht Club's continuing commitment to make the beautiful and historic harbor of Port Jefferson accessible to all and as such, uses member boats and their captains and crew to make the race possible.

The proceeds of the Regatta are split evenly between the Lustgarten Foundation and Mather Hospital's Palliative Medicine Program. These two outstanding beneficiaries of the funds raised use 100% of the proceeds for either pancreatic cancer research or end of life care. Port Jefferson Yacht Club is proud to say that, to date, the Village Cup Regatta has raised over \$442,000.

The Lustgarten Foundation was created to fund pancreatic cancer research and is committed to bring this long-ignored disease to the forefront of cancer research. Lustgarten continues to be the nation's largest private funder of that research. The Port Jefferson Yacht Club has been personally touched by the loss of family members to this disease and are willing to join the fight to find a cure.

The Palliative Medicine Program at Mather Hospital helps patients and their families who are contending with a life changing diagnosis by helping to navigate the complex decision-making about all aspects of the patients care.

Please join us by becoming one of our sponsors. We look forward to another race with enthusiastic sailors.
